PROFESSIONAL SUMMARY

Computer Science graduate and Frontend Developer with hands-on experience building responsive, cross-browser web applications using React.js, Next.js, and TypeScript. Skilled at translating Figma designs into clean, reusable components, integrating RESTful APIs, and managing application state with Redux and React Query. Passionate about writing maintainable code, optimizing performance, and collaborating closely with designers and backend teams to ship user-friendly products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux, Redux Toolkit, React Query, jQuery

Styling & UI: Tailwind CSS, Bootstrap, Shadcn/UI, Responsive Design, UI/UX

Tools & Concepts: Git, GitHub, Figma, RESTful APIs, JSON, Cross-Browser Compatibility, Code Review

PROFESSIONAL EXPERIENCE

Frontend Developer (Remote) | Tech Tent

December 2025 – Present

- Developed responsive, modern web applications using React.js and Next.js.
- Built reusable UI components and optimized application performance for faster load times.
- Collaborated with designers and backend developers to deliver user-friendly solutions.
- Integrated REST APIs and managed application state effectively across components.
- Participated in code reviews and followed best practices for clean, maintainable code.

Frontend Developer — Internship | Route Academy

March 2025 – September 2025

- Developed responsive websites using HTML, CSS, JavaScript, Bootstrap, Tailwind, and React.js.
- Translated Figma UI/UX designs into functional, pixel-accurate frontend components.
- Used Git/GitHub for version control and collaborated within a team workflow.

AI Trainer | Outlier

July 2024 – March 2025

- Evaluated and ranked outputs from leading large language models (Gemini, GPT-3.5, LLaMA, Claude, Mistral) using RLHF to improve accuracy and safety.
- Applied prompt engineering and multi-dimensional assessment (correctness, instruction adherence, writing quality) to optimize model responses.
- Reviewed and refined code-generation and text outputs for clarity and compliance with project requirements.

Technical Support & System Administrator | Egyptian Naval Shipyard

March 2023 – March 2024

- Managed and maintained the warehouse web system, ensuring reliable day-to-day operations.
- Provided technical support and end-user training to improve efficiency and system adoption.
- Troubleshoot hardware, software, and system issues, coordinating with developers to minimize downtime.

- Administered user accounts and performed system updates, backups, and data-integrity checks.

PROJECTS

MoMart — E-Commerce App [Live Demo](#)

- Built a modern e-commerce platform with React.js featuring product browsing, detailed item views, and a smooth, clean shopping experience.

Game-Reviews — Game Discovery & Review Platform [Live Demo](#)

- Created a responsive gaming platform built with Vanilla JavaScript, enabling users to explore game catalogs, share detailed reviews, and discover new titles through a modern, engaging interface.

Weather Web App [Live Demo](#)

- Built an interactive app delivering real-time weather updates for any city with dynamic visuals and an intuitive user experience.

EDUCATION

Bachelor of Computer Science | Thebes Academy

2019 – 2023 · Grade: Good

CERTIFICATES

- Frontend Development Diploma — Route Academy (September 2025).
